

KUSHI KONDOJU

Hyderabad, Telangana | Contact No.: +918328525702 | Email: kondojukushi10@gmail.com

www.linkedin.com/in/kondoju-kushi-2104151b8

Professional Summary

Geospatial professional with a background in **Urban and Regional Planning**, currently transitioning into a GIS Developer role with a focus on **spatial data processing, automation, and database-driven analysis**. Experienced in working with large-scale geospatial datasets, including feature extraction, data validation, and spatial analysis, with practical exposure to real-world projects such as land parcel mapping and urban planning workflows. Skilled in **Python** and **SQL** for geospatial applications, with the ability to build structured data workflows, perform spatial querying, and automate repetitive GIS tasks. Familiar with spatial databases using **PostgreSQL/PostGIS** and capable of handling both vector and raster data processing.

Currently strengthening expertise in programming-based GIS, spatial data pipelines, and problem-solving, with a strong interest in developing scalable geospatial solutions and transitioning into **Web GIS** and **GeoAI** applications.

Education

Jawaharlal Nehru Architecture and Fine Arts University, Hyderabad, Telangana (2019 – 2023)

B. Tech (Urban and Regional Planning) – 7.3 CGPA

Prathiba Junior College, Mahabubnagar, Telangana (2017 – 2019)

Intermediate (MPC) – 93.6%

Akshara High School, Mahabubnagar, Telangana (2017)

SSC – 9.5 GPA

Technical Skills

Geospatial Analysis: ArcGIS, QGIS, Google Earth Engine, Google Earth, Spatial Analysis

Spatial Databases: PostgreSQL, PostGIS, Spatial Querying, Database Management

Programming & Data Analysis: Power BI, Python, SQL, Data Processing, Automation Workflows

Web GIS & Mapping: Web GIS Concepts, Interactive Mapping

Design and Drafting Software: AutoCAD, SketchUp

Graphic and Presentation Tools: Adobe Photoshop, Adobe InDesign

Microsoft Office: Excel, Word, Power Point

Professional Experience

SpatialX Technologies

Hyderabad, India

Full Time: Geospatial Data Analyst

Aug 2025 – Feb 2026

- Led 2D feature extraction projects from satellite imagery, digitizing buildings, built up, utilities using GIS tools.
- Managed and coordinated a team of 20 analysts for large scale feature extraction and spatial data production.
- Conducted spatial data cleaning, validation, and quality checks to ensure topological correctness and adherence to project standards.
- Assisted in developing standardized GIS workflows for feature extraction and spatial analysis, improving consistency across projects.
- Worked on SWAMITVA project, exploring and validating village-level land parcel datasets for property boundary mapping and land record digitization.
- Gained hands-on exposure to real-world GIS project lifecycles, from raw data handling to final output generation.

GIS Subject Matter Expert (SME) – Freelance

Remote Contract

June 2025 – Aug 2025

- Provided GIS guidance and technical support for PhD researchers, assisting in designing and executing GIS based research workflows.

- Assisted in data preparation, spatial visualization, and interpretation of geospatial results.

Global Information Technologies

Hyderabad, India

Full Time: Junior GIS Engineer

Aug 2023 – Oct 2024

Project: Master Plan Update for Rajamahendravaram Urban Development Authority (RUDA), Rajahmundry

- Georeferenced approved layout plans using GIS tools, facilitating advanced spatial analysis and visualization for RUDA's master plan updates.
- Conducted thorough data validation and quality assurance processes to ensure accuracy and maintain data integrity throughout the planning stages.
- Performed data analysis to assess existing land use, identify development gaps, and recommend zoning adjustments aligned with growth strategies.
- Collaborated with urban planners and local authorities to align spatial data with development objectives and regulatory standards.

Project: Solid Waste Route Optimization for Ramky Group, Hyderabad

- Mapped and optimized solid waste collection routes across the GHMC area, identifying Garbage Vulnerable Points (GVPs) and aligning them with operational routes for Mini Trucks and RCVs (Refuse Collection Vehicles).
- Utilized ArcGIS, Google Earth Street View, and MBD Database to prepare detailed route-wise and circle-wise layouts.
- Coordinated with field staff and supervisors to ensure the precise identification of routes and accuracy in data mapping.
- Automated route map preparation workflows to improve operational efficiency and reporting accuracy.

Internships

Water Security Project Intern

The Rainwater Project | May 2022 - August 2022

The Project titled "Water Security Plan for Madhapur watershed block in Hyderabad" for a pilot project on Shallow Aquifer management under AMRUT 2.0, in association with NIUA, New Delhi.

- Assisted in data collection, hydrological analysis, and the identification of potential water sources to enhance water security in the region.
- Contributed to the preparation of project reports and presentations, ensuring alignment with the objectives of the AMRUT 2.0 initiative.

Technologies and skills: ArcGIS, QGIS, Water Resource Data Analysis, Presentation Skills, Data Visualization, Microsoft Excel, Microsoft PowerPoint

Traffic and Transportation Planning Intern

Hyderabad Unified Metropolitan Transport Authority (HMDA) | Apr 2023 – May 2023

Street Area Development for Ameerpet, Mehdiapatnam, Secunderabad Non-Motorized Transport - Cycle Tracks (A pilot project of Khairatabad Zone)

- Assisted in the planning and redevelopment of street areas in Ameerpet, Mehdiapatnam, and Secunderabad to improve pedestrian and vehicular movement.
- Focused on improving pedestrian infrastructure, optimizing traffic flow, and enhancing the aesthetic appeal of streets.
- Supported the project team in data collection, drafting reports, and coordinating with municipal authorities

Technologies and skills: ArcGIS, QGIS, SketchUp 3D, Presentation Skills, Data Visualization, Microsoft Excel, Microsoft PowerPoint

Academic Projects

Rural Area Planning (Amdapur)

- Conducted household surveys, housing typology analysis, and transportation surveys to identify gaps in infrastructure.
- Proposed actionable development plans, focusing on connectivity and housing improvement.

Urban Development Plan for Jawahar Nagar, Hyderabad

- Designed a master plan with traffic surveys and analysis for better transportation and land-use integration.
- Identified key housing and transportation challenges and proposed data-driven solutions.

Regional Plan for Mulugu District, Telangana

- Analysed major economic activities and created a detailed tourism circuit plan.
- Mapped economic zones and transportation networks using QGIS and Google Earth to support tourism development strategies.

Certifications

- Internship Certificate by **The Rainwater Project** – Water Security Plan, 2022.
- Internship Certification by **HUMTA** - Non motorized transportation 2023.
- Volunteer and Participant - World population Day Workshop by **JNAFAU**
- Participant - Annual Convention of **Nonplan** (Organisation of students of Planning)
